

Kawasaki ZX-14 Fender Eliminator
P/N: EMP- 11047
Fits: 2006-2010 ZX-14

Includes:

1. (1) Bracket
2. (3) M6-10 x 12mm Long.
3. (1) Logo Sticker

Instructions:

1. Remove the rear passenger seat.
2. Unplug the License plate light and blinkers (do not cut any wires).
3. Remove the three 10mm bolts that hold the rear mud flap fender.
4. Using the supplied longer bolts attach the new bracket.

NOTE: Use lock tight on new bolts.

If you are using an after market LED plate light. You will have to cut the wires and run them through the hole in the center of the bracket. We do not sell LED lights simply because there are a lot of companies selling them and we are metal shop.
