

Kawasaki Teryx Bed Rails

P/N 10034

Includes:

1. (1) Driver's Side Bed Rail
2. (1) Passenger Side Bed Rail
3. (12) 1/4-20x3/4" Washer Head Hex Bolt-Zinc
4. (12) Clip Nuts (br-94850A129)

Installation:

1. Remove Plastic Rivets from the top of the bed and around the rear tail lights.
2. Remove the Phillips head screws front the side of the bed (one per side)
3. Using a .406 diameter drill, drill out the six holes on the top of each side of the bed.
4. Clip the clip nuts over the holes you drilled out.
5. Using the 1/4-20 bolts attach the bed rails.
6. Re-insert the plastic rivets around the tail lights
7. Screw in the Phillips head screws into the sides of your bed.
