

# Rhino Top Windshield Instructions

## P/N 9715

To be used with Half Windshield P/N 8452 or Yamaha P/N SSV-5UG08-00-00 Half Windshield.

### Includes:

- (4) 9881 Quick Connect Clamps
- (1) Velcro Strip 8" Long (both sides with adhesive)
- (1) Windshield (9715-01)

### Directions:

1. Stick Velcro Strip on this windshield centered along the bottom so that it will stick to the shield already on your Rhino.
2. Take ¼ nylon nuts off of quick clamps and set aside. You will put these on last.
3. Using thumbscrews and clamps mount the windshield to your ROPS. Once, you have it aligned correctly install the ¼ nuts to the quick connect clamps. **Do not over tighten the nuts.**

**Warning:** This windshield should be removed before trailering your Rhino. Serious injury or death could occur. This was designed for off road use only.
