

2005-2012 Ranger Rear Tube Bumper P/N 10299

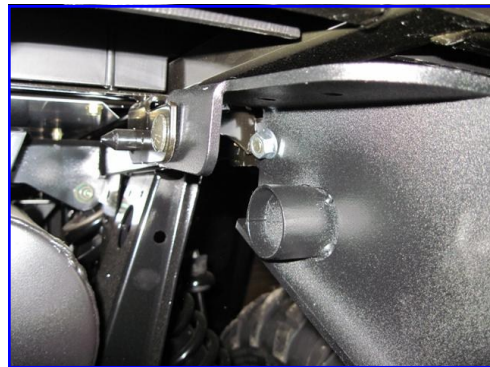

Includes:

1. (1) Rear Bumper
2. (4) 3/8-16 x 1" Carriage Bolts (black)
3. (6) 3/8-16 Flange Hex Nuts
4. (2) 3/8-16 x 1-3/4" Hex Hd Bolts
5. (2) 3/8 X 1" Self Tapping Bolts
5. (1) LOGO Sticker.

Installation:

1. Mount bumper to stock bumper mounting brackets under your cargo bed. The carriage bolts will go into the square holes on the sides.
2. The longer bolts will go up through the holes on top of the mounting brackets. The nuts will go on top of the tube on your frame. These are tricky to tighten but it can be done. On some models you will have to drill a hole for this bolt. You will put the nut between the bed and the frame. You will not have to drill through your bed.
