

# **EMP P/N - 14001**

**Maverick Trail/Sport Speed Shifter  
Fits: 2018-2021 Trail and 2019-2021 Sport**

## **Installation Instructions:**

**Installation should be performed  
by a certified technician.**

### **Includes:**

1. (1) Speed Shifter

### **Hardware Kit:**

No hardware required.  
Uses stock hardware.

### **Tools Needed:**

1. T27 Torx Bit

### **Installation:**

1. Place wheel chocks around the tires to keep the buggy from rolling.
2. Remove the shifter knob by loosening the lock nut under the shifter then unscrew the shifter knob
3. Using the Torx bit, remove the stock plastic shifter shroud and save the hardware.
4. Once the hardware is removed pull the plastic back from the sides. Pull gently and the fasteners will come out.
5. Using the stock hardware install the new shifter plate. Note: The threaded clips will need to be squeezed a little to tighten them on the new shifter. In other words, the stock plastic shroud is a little thicker.
6. Test the shift pattern and make sure it shifts properly.
7. Tighten all the hardware.
8. Enjoy your American Made Product.
